This works in the NEWS area but not in the header.

MENU (*PAGES Available added*)
This isn't hooked up correctly. Is this something you are working on? I need to be able to use the MENU tool to edit this, and it should be the same in the footer.
I'm still confused here. I made a video.

A: Everything should align with this line. **DONE**
B: No space here. **DONE**
C: The font should be Hypatia Sans 14px, 18px line-height. The links should be Hypatia Sans Bold. **DONE**
D: The date should move to below the Tweet and the font is Hypatia Sans Bold 10px. **CANNT BE DONE**
I can live with it.
E: The button to follow this account should go here. Here's the code: **DONE**
Follow @transformchap1<script async src="//platform.twitter.com/widgets.js" charset="utf-8"></script>
Looks good with one exception. I need the spacing to be even in both of these places:

CONTENT POST TEMPLATE **DONE**

F: This should say SEARCH RESULTS **DONE**
G: No intro on these templates. **DONE**
PERFECT THANK YOU!

For the backend, it would really prefer to have custom fields for each piece of information here. (Except for the body of the post itself.) The client is not technically savvy and this would really help them get all the information in the right places. Here's what I originally asked for: **NEED DISCUSS**
Here is how it maps out: https://www.screencast.com/t/WzFU3PDfP
A: This links back to the referring page.
B: Title
C: Categories
D: ("by Ano GG...") Author/Creator
E: Year
F: Item Type
G: Journal/Site/Institution
H: Summary

I: Public Link (will either be PDF or link off the site. Need the button to reflect either)

This is the biggest chunk of the site (there will literally be hundreds of posts), so this will help streamline this information.

I'd like custom fields here, too. This code is problematic for them. **DONE**

THANK you

Got it.

B: How to edit these icons? **Appearance -> Widgets -> Footer**
C: Where to edit these logo links? **Same Potion**
D: The footer isn't bringing in the same items from the menu. **DONE ALL PAGES I FOUND**
Still confused on D

The NEWS sidebar should align as such. **DONE**
Thanks. Could you replace this image with the image I've attached? It isn't wide enough.

I still need placeholder text here: "search transforming chaplaincy". Also, the search doesn't appear to be working. **DONE**
Instead of saying "First search transforming chaplaincy" it should say "Search Transforming Chaplaincy"
Also, I want the search on the NEWS page to just search the NEWS section, not the rest of the site:
